Machinery.

INDEX TO VOLUME THREE.

. September, 1896, to August, 1897.

About Worm Gears 111
About Wide Belts, Webber 46
Actual Practice, From, Milo....73, 97, 111, 153, 175, 234, 285, 297, 351, 377,
Advance in Freight Rates..... 102
Advance Notes of the Nashville Exposition..... 199
Advertising Literature..38, 68, 102, 133, 165, 198, 230, 259, 294, 326, 358, 390
Adjustable Pipe Die 300
Adjustable Reamers..... 129
Alloys..... 62
Allowance for Forcing Fits..... 277
Aluminum in Knitting Machinery, Rice..... 369
American Machinery in Great Britain, The Outlook for..... 362
American Steel Pulley, The..... 256
American Society of Mechanical Engineers, The.....136, 159, 182
An Opportunity..... 250
An Old Automatic Gear Cutter.... 83
An Old Lathe 352
Another Chapter in Gear-Ology, Clough..... 48
Another Metallurgical Wonder (?) 331
Another Wonderful Engine..... 129
Ancient Pompeiian Boilers..... 140
Anvil and Fiddle Again, Milo..... 197
Arabian Numbers, Origin of the, Juan de D'Lejada..... 12
Arc, Planing An, Hunter..... 108
Arithmetic, Spur Gear, Babbitt... 378
Arithmetic, A Little—Finding the Area of a Circle—Squaring of a Number..... 322
Arsenal, The Watertown 1, 39
Asphalt for Shop Floors 162
At the Worcester "Tech.". 47
Automatic Bicycle Hub Drill..... 32
Automatic Sprocket Wheel Cutter 315

Backwood's Professor, My, 95, 192, 319
Babbitt Metals, Vickers..... 283
Ball Bearing Pipe Centre, Bement 292
B & O New Electric Plant..... 197
Baush & Harris Mch. Tool Co., New Shops of the..... 91
Beam Dimensions and Load by Diagram, Hess..... 330
Bearings, Self Lubricating..... 300
Belts..... 93
Belts Again, Wide..... 164
Belt Driver, A Vertical..... 191
Belt Stretcher, R. G..... 125
Belts, About Wide, Webber..... 46
Belt Heresy, The Wide, Cheney... 10
Belts and Pulleys, Hemenway..... 105
Belts and Pulleys, Sweet..... 98
Belt Holes in Floors, Cutting, Rich..... 255
Belting, "Centrifugal Force" of, Grimshaw 349
Belting, High Speed M. E., Mathematics and Machinists 221
Bessemer Process, The Origin of the..... 142
Bench Drill, New..... 288
Bevel Gears, Cutting with Rotary Cutters.....142, 159
Bicycle Hub-Drill, Automatic..... 32
Bicycle Vise..... 256
Bicycle, A Wonderful..... 95
Bit of Foundry Experience, A, Jewett..... 115
Black Diamond File, A..... 325
Blacksmith Shop, Watertown Arsenal..... 39
Blackening Steel Watch Cases, A Method of, The American Jeweler..... 206
Blowing Out of Boilers, The, Carlile..... 44
Blue Prints, "Reverse" 121
Boiler, A Water Tube..... 30
Boilers, Ancient Pompeiian..... 140
Boiler Horse Power—Isometric Drawing, Thermal..... 72
Boilers for Mills and Factories, Selecting, Wakeman..... 60
Boilers, The Blowing Out of, Carlile..... 44
Boiler Designing, Systematic Norris..... 168
Boiler Grate, Efficiency of the.... 184
Boiler Setting, Higginson, A Compact Power Plant..... 62
Boiler Settings, Patented and Unpatented, F. G..... 84
Bolts, Nuts and Rivets..... ....241, 266
Books, The Value of..... 86
Boring and Turning Mill..... 91
Boring Cutter, A..... 98
Brass Foundries 145
Something About Furnaces... 170
Brass Working Tools..... 237
Lathes—Slide Rests..... 303
Breaking Point, The, F. G..... 217
Breaking up Castings..... 61
Bribery, One Form of (Editorial).. 148
British Man-of-War, The First, Usher..... 71
Burr Portable Key-Seater..... 74
Business..... 165, 198, 292, 358
By Their Fruits Shall Ye Know Them, Slow Pay..... 81

Calculations, Chimney, Carlson... 34
Capitaine Oil Engine..... 162
Carelessness ? Is it..... 52
Cast Iron Turning Tools..... 94
Castings Breaking up..... 61
Centrifugal Circulating Pump, Cooling Surface and Size of, Smith..... 204
Centrifugal Force of Belting, Grimshaw..... 349
Center Grinder, Home Made..... 200
Cheap Snap Gage A, J. H. C..... 131
Chief Draftsman, The Officer of, Smith 220
Chimney Calculations..... 34
Chuck, A Handy, Jackson 110
Chuck, Planer and Drill Press Vise..... 350
Clutch, A Friction..... 30
Combined Cold Sawing and Facing Machine, Engineering London..... 127
Combination Punch and Shears... 114
Combination Radial Drill..... 288
Combined Triangle and Protractor 287
Coming Exposition at Paris, The.. 221
Compact Tool Closet..... 179
Compact Power Plant..... 62
Compound Indexing, Price..... 312
Compound "King" Engine..... 193
Compressor, A New Air..... 30
Compressed Air for Hoisting Purposes, Klindworth..... 161
Computers, Special Forms of..... 140
Cone Turning Fixture..... 15
Convention Chat..... 159
Cooling Device for Shops, Water.. 131
Cooling Surface and Size of Centrifugal Circulating Pumps for Surface Condensation, Smith.... 204
Core-Box Plane—A Study in Levers, Chips..... 155
Cooper, John Haldeman, Obit ... 302
Core-Making Machinery, Grimshaw..... 121
Countershafts, Friction, T. E. F.. 28
Corrosive Action of Pure Waters The..... 57
Cost-Keeping Foundry, Norris.... 108
Crane, A 200 foot Gantry..... 139
Cranes, Foundry Traveling, Scheffler, Jr..... 121
Cranes, Semi Electro and Other Shop, Grimshaw 236
Crank-Pin Brasses, Gleason..... 112
Cranks, Connected by a Link, Two 269
Criticising the Management, Been There..... 159
Cup Leathers or Hemp, Hudson .. 292
Cutter, A Boring..... 98
Cutter, An Old Automatic Gear... 83
Cutter, Mushet Steel Milling..... 160
Cutter, Plug..... 97
Cutter, A Rod..... 99
Cutting-off Tool..... 34
Cutting Belt Holes in Floors, Rich..... 255
Cutting Bevel Gears with Rotary Cutters (Sub head).....142, 159
Cycle Forgings, Machining, Onondaga.....152, 176
Cylinder Cam, Pattern for a, Richardson..... 265
Cylinders, The Strength of Hydraulic 65
Cylinders, Strength of Thick, Hollow, Cooper.....208, 252
Cylinders Thickness of—for Different Pressures..... 236

De Dion, Petroleum Motor, The Bouton..... 193
Depth Gauge, A New..... .....259, 314
Designs of Cast Fly-wheel Sections, The, E. J. M..... 130
Designing An Engine Shaft Governor, Scheffler, Jr 143, 186, 216, 242, 281
Details of Governor, Universal High Speed Engine..... 46
Development of Some Connecticut Industries, Goodyear..... 13
Device, A Handy, Jackson 228
Diamonds, Making..... 128
Direct Connection, A Method of... 30
Directions for Reversing the Governor..... 282
Don't Wait, Send Now..... 61
Double Acting Planer Head, A.... 289
Drawing Room Records, A System of, Hess..... 104
Drafting Room, System in the, Hemphill..... 84
Drafting of Cams, Louis Rouillion, 207, 246
Drawing on Grained Paper, Sargent..... 203
Drafting Room Supplement, Modern, Norris..... 214
Drill Case, A New..... 287
Drills, Lubricating..... 36
Drill Press Spindle, Graduated.... 97
Drilling Machines, Two Special... 44
Drop Press, Automatic..... 321
Duplex Ratchet Drill..... 38
Econometer, The..... 302
Economic Steam Raising and Utilization, Herschman..... 274
Effect of Heat on Iron, The 226
Electricity in an Oil Cloth Factory, Hand..... 263
Electricity from Coal..... 235
Electricity on Farms..... 266
Electricity vs. Shafting in the Machine Shop, Benjamin..... 344
Electrical Machinery, How to Calculate, Design and Construct, Baxter, Jr.....315, 335, 374
Emery Wheel Dresser, A New.... 65
Engine, Another Wonderful..... 129
Engine, Compound "King"..... 198
Engine Drawings, Ready Made.... 25
Engine Lathes, Large..... 158
Engine, A New Thermic..... 76
Engine, The Original Corliss Pumping, French 11
Engines, Oscillating..... 30
Engine Shaft Governor, Designing An, Scheffler, Jr.143, 186, 216, 242, 281
Engine, Universal High Speed.... 46
Engineers' Societies, Growth of... 371
Engineering Notes, Richards..... 49
Engineering Problems. 62
English Patent Schemes..... 312
English System of Forced Draft, An, Vose..... 63
Equivalent Evaporation, Doolittle 255
Erecting Shop, The, Watertown Arsenal..... 40
Errata..... 342
Estimating Cost of Power and Power Plants, Marks..... 339
Estimating Time and Work, Rule for..... 275
Evening Class in Steam Engineering..... 102
Every-Day Shop Subjects, Chips 59, 110, 155, 200, 284, 298
Evolution of Processes..... 171
Expenses and Returns..... 86
Extracts from A. S. M. E. papers 182

Few Facts About Lag Screws, A, I. B Rich..... 284
Few "How to do It's," A, Jackson..... 49
Few Practical Shop Hints, A, J. T. G..... 119
Few Shop Tools, A—Chuck Jaw—"Why"—Oiler—Boring Tool, Rogers..... 324
File, A Black Diamond..... 325
Fine Measurements on Drawings, Lawrenz..... 296
Fire-poofing Tests, Report of the Committee on.... 140
Fixture, Cone Turning.... 15
Flat vs. "V" Ways..... 264
Flowed Steel..... 257
Fly-wheel Case, A, Wm. Sangster. 106
Fly-Wheel Sections, The Designs of Cast..... 130
Forcing Fits, Allowance for....277, 297
Foundry Cost-Keeping, Norris 108
Foundry Experience, A Bit of, Jewett 115
Foundry, Improvement in the, Keep..... 103
Foundry Practice, Niles Tool Works, Connor.....117, 167
Foundry Time and Cost Keeping, Webster..... 203
Foundry Traveling Cranes, Scheffler, Jr..... 121
Freight Rates, Advance in..... 102
Freight-Shifting Motor, A, Bullock 280
Fresh from the Press...38, 68, 102, 133, 165, 198, 229, 259, 294, 326, 358, 390
Friction Countershafts, T. E. F... 28
Friction Clutch, A..... 30
Friction Clutch, A New..... 189
Friction Horse Power in Factories, Webber.....139, 177
Friction Losses and Oiling Systems For Steam Engines, Adams 55
